

TATEDOGE

Bringing TopG to Blockchain

# TATE DOGE INTRODUCTION

Tate Doge is a Meme Coin project based around the principles of Andrew Tate. We will provide opportunities for users to change their lives through opportunities and wealth. The token is based on the Binance Chain. Tate Doge will feature its own Call Channel to provide investors with a safe, knowledge filled space to make educated decisions on their portfolio. Tate Coin will utilise Andrew Tate Hype and advocate for his freedom, hopefully gaining his attention to support our loyal holders while our holders earn DOGE!

# TATEDOGE OBJECTIVE

- We aim to increase the value of our currency to benefit our community.
- Building a strong community group and increasing our holders to a Global level.
- Create an effective Call Channel that provides followers with safe gems that will make them prosper.
- Introduce a successful currency that supports our Ecosystem and brings value to holders while rewarding Doge via reflections.
- Partnerships with Doge Armies and Tate Armies to bring together the Community.
- Publish positive Andrew Tate Media to support his cause.

# PROJECT FEATURES

TateDoge provides useful, resourceful utilities to build out our Ecosystem. Our utilities provide users with both earning potential and opportunities to grow.

## TateDoge Coin

\$TATEDOGE will be the main currency of our Ecosystem based initially on the Binance Chain. We will diversify the use cases and allow our Utilities to feature \$TATEDOGE within their models. Holders will gain DOGE Reflections on trades.

We have created a Call Channel to deliver solid projects to our community to invest in. We have built partnerships with Launchpads to bring you the best ICOs and IDOs with whitelists and more.

We have partnered with a Media Agency to create and publish Andrew Tate Content that will promote his cause and assist him in his trying times. We will use this stage to build our community with likeminded people.
